MIST CONFIRMATION

Please confirm that you have selected the correct student and test. Press CONFIRM to continue, or press BACK to make changes.

Student:  Anastasia Beliveau
Test:     Grade 3 Mathematics Benchmark - Alpha
Form:     Form 1
Welcome!

The directions listed below will assist you with the Grade 3 Mathematics Benchmark.

DIRECTIONS

You may use scratch paper to help you solve the problems. You may not use a calculator to help you solve the problems.

Read each question and choose the best answer. If you cannot see the complete question and all answer choices on your computer screen, use the scroll bar to move up and down. The scroll bar is located on the right of your computer screen and looks like this:

To Zoom in (make the text appear bigger): Click the magnifying glass icon with the plus sign in the upper right corner of the screen.

To Zoom Out (make the text appear smaller): Click the magnifying glass icon with the minus sign.

You do not have to answer a question before moving to the next question. If you do not know the answer to a question or are unsure of the answer you have chosen, you can click the Flag at the top of the screen. This will make it easier for you to return to those questions before finishing your test.

The REVIEW ITEMS button will allow you to view a list of available questions, marked questions and unanswered questions. To view a particular question, click on the question number and press GO TO ITEM. If you do not wish to review any questions, click FINISH.

To begin, click START TEST below.
Use the ruler tool to measure the line below.

The length of the line to the nearest centimeter is

- 80 centimeters.
- 8 centimeters.
- 70 centimeters.
- 7 centimeters.
Use the ruler tool to measure the line below.
