CHECK OUR LIST OF AT RESOURCES FOR YOUR STUDENTS WHO QUALIFY FOR THE CHECKLIST

CAROL L. MAGLIocco, PH.D., ATP, PT
AMY T. NORTON, M.ED., ATP

Educating Students with Significant Cognitive Disabilities Conference
August 19, 2011
Marriott Hotel, Farmington
Topics

- What is assistive technology
- Software options that provide modified curriculum and others that can be edited to meet the unique needs of learners with significant disabilities.
- Using software tools to assess skills on the CMT Checklist
- Alternative access methods for students who are unable to use a standard mouse and/or keyboard will be demonstrated.
- Web resources for students with significant disabilities
What is Assistive Technology?

- Devices and Services
- Low to High Tech Tools
- Tool that enables students to perform tasks which they can not accomplish due to their disability more efficiently or independently
- Includes services to obtain, maintain, repair and replace select tools
- Most importantly, includes training on how to utilize the tool
What is Assistive Technology?

- Required under IDEA to be considered for each student eligible for special education to access, participate and progress in the general curriculum to the greatest extent possible and as independently as possible
Software Options for Modified Curriculum
