STUDENT TEACHING EVALUATION FORM
AGRICULTURAL SCIENCE

The main purpose of this evaluation form, completed by the university supervisor, is to be used as a summative evaluation of a student’s performance in order to facilitate the student’s professional growth as a teaching candidate in the first year of the clinical experience. This instrument may be used for formative purposes involving a regular observation/feedback cycle.

This student teacher evaluation form is aligned with the Connecticut Common Core of Teaching (CCCT). The following CCCT standards are communicated for your reference. Additionally, the form is aligned to standards in your field as articulated in the displayed rubric.

A. Teachers apply knowledge by:

1. Planning – Teachers plan instruction based upon knowledge of subject matter, students, the curriculum, and the community, and create a structure for learning by selecting and/or creating significant learning tasks that make subject matter meaningful to students.
2. Instructing – Teachers create a positive learning environment, use effective verbal, nonverbal, and media communication techniques, and create and facilitate instructional opportunities to support students’ academic, social, and personal development.
3. Assessing and Adjusting – Teachers use various assessment techniques to evaluate student learning and modify instruction as appropriate.

B. Teachers demonstrate professional responsibility through:

1. Professional and Ethical Practice – Teachers conduct themselves as professionals in accordance with the Code of Professional Responsibility for Teachers.
2. Reflection and Continuous Learning – Teachers continually engage in self-evaluation of the effects of their choices and actions on students and the school community.
3. Leadership and Collaboration – Teachers demonstrate a commitment to their students and a passion for improving their profession.

Directions

There will be a three-way meeting among the student, cooperating teacher, and university supervisor. Student Teacher – Should come prepared with a self-assessment of your own progress. Cooperating Teacher – Should come prepared to discuss the progress of the student. University Supervisor - Will facilitate discussion and reaching of consensus at the meeting in relation to student teacher’s scores for each of the standards. The university supervisor will enter student scores electronically into Checkbox. As part of the three-way meeting, this form, which is in three sections, will be completed. The first section of the form answers some general questions about placement. The second section asks you to indicate a score for the candidate’s performance on each standard. The third section requests background information.

For each of the standards, the following will be used to evaluate the teaching candidate:

3 = Student is making outstanding progress by effectively planning/implementing instruction to address this standard.
2 = Student is making satisfactory progress by making deliberate attempts to address this standard.
1 = Student is not making satisfactory progress and still remains weak in addressing this standard.
N/A = For use only in the mid-term, means “not applicable” because the standard is yet to be covered.

The scoring process for the final evaluation is as follows: if the student has mostly #2's and three or four #3's, the student will receive a grade of “A”. If the student has all #2's, a grade of “A-” is awarded. If mostly “2’s and three or four #1’s, a “B+” is awarded. If the student has more than five #1's, a grade of “B” or below is awarded.

Please remember: For the midterm, there will not be a final grade submitted.

Follow-up

Within a week after the due date, the student, cooperating teacher, university supervisor, advisor, and the Teacher Education Office will receive electronically a PDF file with the completed form.
